

**St. Teresa of Calcutta School**  
**Summer Reading & Math List for 2022-2023**

**Middle School (grades 6-8)**

---

**SUMMER READING:**

Dear Middle School Students,

Happy summer vacation! During the summer, students entering Grades 6-8 will be required to read one book (noted below). There will be a **test** on the summer reading selections during the first week or two of school and we will be doing some class activities with the novels as well. Each student is required to have a copy of his or her summer reading books on the first day of school. Electronic forms of the books are acceptable on iPads or the like.

**Students entering Grade 6:**

\***Mandatory selection:** *Wonder* by R.J. Palacio

**Students entering Grade 7:**

\***Mandatory selection:** *The Island of the Blue Dolphins* by Scott O'Dell

**Students entering Grade 8:**

\***Mandatory selection:** *The Lemonade War (book #1)* by Jacqueline Davies

Have a wonderful vacation filled with memories. See you at the start of our 2022-2023 School Year.

Happy Reading,

Miss Lesieur

## **SUMMER MATH:**

Dear Middle School Students,

It is important that over the summer students continue to strengthen their math skills. One major skill that will make middle school math easier is to know your basic multiplication and division facts.

By middle school, students should be able to:

- Multiply and divide multi-digit numbers
- Multiply and divide fractions
- Add and subtract fractions with unlike denominators
- Add and subtract decimals
- Order of Operations

7th and 8th grade students should also know how to add, subtract, multiply and divide integers.

Here is a list of websites to work on throughout the summer:

**Khan Academy**

**IXL**

**<https://www.purplemath.com/>**

*~ Those students who complete 5 hours of IXL within their grade level in math will earn an incentive the first week of school. :)*

Looking forward to seeing you all back in August. I hope everyone has a restful and joyful vacation!

~ Mrs. Costa
